

DORKING DNA LIMITED

Notes for Potential Members

Objects of the Company

The objects of Dorking DNA (Dorking Needs Action) are primarily to develop and facilitate the implementation of the projects identified in the Dorking DNA Healthcheck and any subsequent projects identified by the company. These projects are intended to improve the economic, environmental, social & community, transport and access conditions or facilities of Dorking and the surrounding area in order to improve the quality of life for those living and working in the area.

Responsibilities of Membership

Membership of the company is straightforward and entails few responsibilities. We are a company limited by guarantee which means member organisations agree (i.e. guarantee) to contribute one pound to the payment of any debts incurred by the company if it is wound up. There is no membership fee or subscription.

By the company Articles of Association there is no limit to the number of members. Membership is open to organisations who represent interests of the residents of the Dorking Area and which are based in the area and to individual persons or companies within the area (Corporate Members).

The number of elected Directors can be no more than ten. Two local authority Directors are to be appointed by MVDC and Surrey County Council. Councillor Stephen Cooksey has been nominated by Surrey County Council and MVDC are still considering their nomination. Directors need not be associated with a member organisation.

Benefits of Membership

Through membership an organisation can attend the General Meetings of the company and via a nominated voting representative can vote in the election of Directors and other resolutions. Members can introduce appropriate new projects to the company and call on its expertise in matters such as surveys and fund raising.
